2017 (RE, MV, & PP)	40.91	35.81	46.97

NOTE: Due to a change in legislation for the 2015 Grand List, motor vehicles had a separate mill rate. The mill rates for the motor vehicles on the 2015 Grand List were revised in May 2016 (after previously being adopted in April 2016) due to another change in legislation, changing the motor vehicle mill rate from 32.00 to 37.00.

Revised mill rates for Motor Vehicle taxes on the 2016 Grand List are as follows: Town District: 39.00; Eighth District: 34.85. Special Services District taxes do not apply to motor vehicles. All motor vehicles located in the Special Services District are taxed at the Town District rate.

For the 2017 Grand List, there is no separate mill rate for motor vehicles only.

\*\* The 1990 revaluation was phased-in. The 1990 Grand List was based on an assessment ratio of 36.67%. The 1991 Grand List was based on an assessment ratio of 53.34%. 1992-2005 were at an assessment ratio of 70%.

\*\*\* The 2006 revaluation was phased-in over three years, with the 2008 Grand List being the first year that the 2006 revaluation assessments were equal to the State of Connecticut's mandated 70% assessment ratio.
